

REALTRIM™ YOUR NATURAL TRIM CHOICE

REALTRIM™
BY WOODTONE

SUPERIOR PERFORMANCE
DESIGN FLEXIBILITY
25 - YEAR WARRANTY AVAILABLE
TIME TESTED... BUILDER APPROVED
SUSTAINABLE RESOURCE

COATING TECHNOLOGY

RealTrim™ products are coated with our exclusive Hybrid Alkyd Emulsion™ (HAE™). HAE™ incorporates the proven polymer technology of our original alkyd-oil coating while providing the environmental benefits of water. Combined with Borax for mold resistance and greater long-term appearance, our coating is the most advanced in the exterior trim and fascia market.

RealTrim™

RealTrim™ is designed to create structure, add curb appeal, and provide easy flexibility in a changing building world. Our value begins with hand selected, tight grain, kiln dried Western SPF, a substrate recognized for both stability and environmental sustainability. RealTrim™ comes primed with our ultra low VOC Hybrid Alkyd Emulsion™ primer, or with our enhanced RealTrim™ CG ColorGuard™ Coating System. Available in any color with a warranty package up to 25 years, RealTrim™ is the Natural Trim Choice for Architects and Builders who demand quality while saving time and money on their projects.

Design Flexibility

- Fascia Boards
- Band Boards
- Window/Door Trim
- 2" Garage Door Liner
- Column Wrap
- Rake/Frieze Boards

RealWood™ Warranty

RealTrim™ is backed by a no-nonsense RealWood™ warranty against rot. The RealWood™ warranty gives you the security and trust you need when making your buying decision. For a copy of the warranty program please visit our web site.

always there, naturally

Features and Benefits

Multiple Lengths	Available in lengths of 8' - 24' to lower your job-site waste and reduce joints which lowers cost and saves labor.
Coated all 6 Sides	Hybrid Alkyd Emulsion™ is flood coated on all 6 sides, offering superior protection against Mother Nature.
Simple Installation	Builders do not need to use special tools, or need special training.
Eliminate Sub-Fascia	Compared to composite materials, RealTrim™ does not need a sub-fascia, lowering material and installation costs.
Environmentally Friendly	RealTrim™ is manufactured from renewable resources, unlike cement based trim products.

Manufacturing Process

We hand select our products to provide you an appearance grade trim and fascia that delivers the curb appeal and quality that buyers expect. Our products are coated using specially designed machines to provide RealTrim™ with the optimal amount of primer coverage to ensure long-term performance in the field. Hand packaged and wrapped with recyclable lumber wrap, we maintain quality control throughout the entire manufacturing process.

Extended Warranties

National paint and sealant manufacturers have tested and approved RealTrim™ for use with their products and offer extended top-coat warranties when their coatings are used with RealTrim™. Also available is RealTrim™ CG (ColorGuard™ Coating System). These warranties will extend top-coat protection up to 25 years. Visit www.woodtone.com for a list of our paint and sealant partners.

Installation

Simple installation makes RealTrim™ the preferred choice for framers, siding contractors, and builders alike. Traditional tools such as saws, hammers, and nails are all you need. As with any trim product, it is important to protect RealTrim™ prior to installation by keeping it covered and off the ground. Adherence to local building codes and following our installation instructions will result in product performance you can trust. Our full installation instructions are available at www.woodtone.com.

Availability

RealTrim™ is readily available throughout the United States and Canada through building material dealers. For multi-family jobs and large scale projects we can deliver direct to the job-site. For a dealer near you, please give us a call.
